SKILLS

Frontend: HTML, SCSS, JS, React, Next.js
TypeScript, Flutter, Dart, React Native,
Webpack, Tailwind, Bootstrap.
DataBase: MySQL, PostgreSQL, Firebase
Backend: Node.js, Python(Django), Express

EDUCATION

Bachelors in Computer Science

University of Toronto (UTM)

2022 - 2023 (exchange program)

- Specialized coursework in Web
  Development, Artificial Intelligence,
  and Mobile Development
- Developed practical skills and
  theoretical knowledge in various
  aspects of computer science
- Engaged in collaborative projects with
  a diverse group of international
  students

Bachelor of Computer Science

NTUU "Igor Sikorsky Kyiv Polytechnic Institute"

2021-2025

- Developed a diploma project: a mobile
  app with front- and back-end integration
  for teaching young developers, featuring
  an AI assistant that analyzes user
  mistakes and provides tailored tips.
- Completed specialized coursework in
  Software Engineering, Data Science, and
  Cybersecurity.
- Collaborated on projects with peers from
  diverse cultural and academic
  backgrounds.

PROFILE

Full-stack software engineer with 5 years of experience building scalable web and
mobile applications. Strong expertise in React, Next.js, Flutter, Node.js, PostgreSQL
and Firebase, with a proven track record of delivering user-friendly, high-
performance products.
Experienced in startup environments, driving products from idea stage to real users.
I enjoy working closely with people, solving problems through clear communication
first, and avoiding over-engineering by focusing on practical, impactful solutions.
Passionate about building technology that improves everyday experiences and
fosters better collaboration.

WORK EXPERIENCE

Software Engineer

Diadia   2024-now

- Built and launched the company's public-facing website end-to-end using
  Next.js.
- Contributed to growth of the product, owning significant parts of both the web
  app (Next.js) and mobile app (Flutter).
- Made sagnificant impact to expansion across 5 U.S. states.
- Implemented key features, refined UI/UX, and ensured high performance across
  platforms.
- Played a central role in the company's growth from 0 to 100+ first customers,
  delivering rapid iterations based on user feedback.
- Led testing, debugging, and bug fixing efforts to ensure product stability during
  fast-paced development.
- Collaborated closely with a small startup team, balancing speed of delivery with
  long-term maintainability.
- Stack: Next.js, TypeScript, Flutter, Dart, PostgreSQL, Django, Python, Tailwind.

Software Engineer

Pandahub   2023-2024

- Drove record-breaking growth: YTD revenues up 2,228% and traffic up 4,116%.
- Contributed to expansion across 9 U.S. states and 3 Canadian provinces.
- Supported successful Pre-Seed and Seed fundraising rounds.
- Helped establish the company as the Fastest Growing Car Care Marketplace in
  the industry.
- Built the entire frontend of the web and mobile app from scratch using Flutter.
- Developed and maintained a scalable backend with Node.js, TypeScript, and
  Firebase.
- Implemented core business logic, authentication flows, and real-time data sync
  with Firebase.
- Integrated third-party services, payment gateways (Stripe), and analytics to
  improve UX and efficiency.
- Led technical decisions on architecture, API design, and database structure,
  optimizing for growth and maintainability.
- Collaborated with product, design, and marketing teams to refine UI/UX and
  boost engagement.
- Stack: Next.js, TypeScript, Flutter, Dart, Firebase, Node.js, Django, Python.
